

STEVE DILLON

Web Designer

PERSONAL STATEMENT:

During my formal art training, I specialized in drawing, painting, printmaking and photography. I learned the crucial fundamentals of these non-digital disciplines as well as the advanced concepts of color theory, layout, and composition. These skills, coupled with my training in the Bloc Web Developer program and Masters in Web Design and New Media empower me with considerable technical and visual storytelling resources making me a valuable asset to any design team.
